Space & Naval Warfare Systems Center Awards Contract

SAN DIEGO -- Tracor Systems Technologies Inc, Rockville, MD is being awarded a cost plus fixed-fee, indefinite delivery, indefinite quantity type contract for an estimated amount of \$5,092,783 for engineering and technical support services for mobile tactical systems, joint combat system, ground theater air control systems and related special programs and projects. This support includes the design, development, installation, integration, documentation, repair, restoration and testing of individual and joint service mobile tactical systems, command, control, computers, communications, intelligence, surveillance, and reconnaissance systems and special program systems. Support includes ensuring the subject systems are properly designed, tested and installed as stand-alone systems or integrated into a host platform, such as ship, van, shore site, shelter, or other platform. The work will be performed primarily in San Diego, CA. The period of performance for the base year from July 1998 to July 1999. The contract contains four one-year options which, if exercised, will bring total the cumulative value of the contract to \$25,971,319. The contract will be funded with \$509,278 of non-expiring overhead funds which is the minimum funding obligation for the contract. This contract was competitively procured. There were 105 firms solicited and six offers were received. The Space and Naval Warfare Systems Center San Diego is the contracting activity (N66001-98-D-5062).
